

# RTITB Slinging and Signalling

## Course Introduction

Our RTITB accredited safety in Sliding & Signalling course aims to provide our learners involved in lifting operations, with the skills and competency required for safe sliding and signalling operations.

The course applies for operators of all experience levels, delivered to the following durations:

- **Novice | 21 hours**
- **Experienced | 17.5 hours**
- **Refresher | 9.25 hours**

On completion of the RTITB course, you will receive a **E - Card & PDF Certificate**.
